Morehend's Magic Eye-Water.

A safe, prompt and infellines REMEDY for all inflammatory and external DISEASES of the ETE.

This new and beautiful preparation has been suggested by recent discoveries in chemical science, and is indorsed and recommended by several of the most eminent physicians of this city, who have tested it in their practice. A valuable and reliable EYE-WATER is needed. You discuss are more anneying and prevalent than those of the eye. You are so reality renewed, if they proper means be used in time; and none are note serious, if they be neglected.

It is not departing from the truth to assert that in nearly all cases where the internal structure of the eye is not involved, a few applications of the MAGIC EYE-WATER will restor perfect health to the organ, and render any further doctoring or medication unmercessary.

The proprietor would regret to insalt the good sense of the public by recommending his EYE-WATER as a certain cure for Amarrosis, which is a paralysis of the optic nerve; for Cataract, an which the crystalline lens—or window of the eye—has become propule of can keesed, of even to applied to the eye—has become opeque or can keesed, of even to applied to the eye—has become opeque or can keesed, of even to applied to direct the world a safe, prompt, and reliable remedy for all external complaints of the Eye, and for all conditions of inflammation of the organ. We further assert that the MAGIC EYE-WATER will give tone and strengt. It is eight, and impart new vigor to enfectbed vision. This latine whole story.
